Working Experience & Collaborations

- Jul 18 – Present

 Product designer
Fiverr

Worked as a freelancer on Fiverr, designing user-friendly and visually appealing interfaces for web and mobile applications. Developed and customized WordPress websites, ensuring seamless functionality and responsive design. Delivered high-quality projects tailored to client needs, focusing on usability, performance, and modern design trends.
- Jul 18 – Present

 UX designer
Upwork

Working as a freelancer on Upwork since 2018, collaborating with various companies to design seamless user experiences and develop high-performing WordPress websites. Specializing in intuitive UI/UX design, responsive web development, and custom WordPress solutions. Successfully delivered projects across diverse industries, ensuring client satisfaction and business growth.
- 2019 Jun  Turkey

 Product designer
Durak Tekstil

Collaborated with the developer and manager of Durak Tekstil to design Resimlerim, a web and mobile app for managing image albums with full online functionality. Led the UI/UX design process, creating wireframes, prototypes, and high-fidelity designs in Adobe XD. Focused on intuitive navigation, modern aesthetics, and seamless user experience. Delivered a fully interactive design system to streamline development.
- Nov 11, 2020 – May 21, 2021  Israel

 App designer
iGreen

Collaborated with iGreen to design Fiesta, a mobile application for iOS and Android focused on event management. The app featured three distinct modules—Admin, Manager, and User—to streamline event planning, attendee management, and real-time coordination. Led the complete UI/UX design process, from user research and wireframing to high-fidelity prototyping in Adobe XD. Designed intuitive workflows to enhance usability and ensure a seamless experience across all user roles. Delivered a scalable and visually engaging design system optimized for mobile responsiveness and accessibility.
- Dec 13, 2023  Canada

 App designer
DS Web Solutions Inc

Collaborated with CTO Dmitry Shulmann to design a mobile application focused on gut health and wellness. Led the UI/UX design process in Figma, creating intuitive user interfaces and seamless user experiences. Developed wireframes, prototypes, and high-fidelity designs to enhance user engagement and accessibility. Focused on usability, aesthetics, and a data-driven approach to ensure a smooth user journey. Designed a scalable and responsive UI, optimizing the app for both iOS and Android platforms.
- May – July 2024  Pakistan – Full time

 UI/UX Designer – WordPress Developer
Cuebytes

Worked full-time at CueBytes, a software company, specializing in WordPress development and UI/UX design. Designed and developed responsive, high-performing WordPress websites tailored to client needs. Created intuitive UI/UX designs, wireframes, and prototypes to enhance user experiences. Collaborated with developers and stakeholders to ensure seamless functionality and modern aesthetics. Optimized website performance, accessibility, and mobile responsiveness.
- Sep – Dec 2024  Remote – Full time

 UI/UX Designer – WordPress Developer
Brandy

I worked as a WordPress developer and UI/UX designer at Brandy, where I was responsible for designing and developing engaging, high-performance websites. My role involved creating intuitive UI/UX designs, wireframes, and prototypes to improve user experience. I also customized and optimized WordPress websites, ensuring responsiveness and seamless functionality. Working closely with developers and stakeholders, I translated business needs into user-friendly digital solutions. Throughout my time at Brandy, I focused on enhancing website speed, accessibility, and overall usability.
